Falper design & Michael Schmidt per Falper

Enjoy the luxury of a male collection, an important, majestic project where each material is called to play a key role. The polished steel, the Pietraluce resin, and the mirrored surfaces all reflect the imposing nature of this ambiance. In a collection where the world becomes man.

The exquisite collection also offers other products like Mirrors and Floor Bases, etc.

Falper was born more than 40 years ago from the creativity and entrepreneurial spirit of Guido Fallavena, as an industry of fittings production in plastic material for furniture. The current affirmation of the Falper brand as manufacturer of bathroom furnishing design is due to its production with qualitative standards that are a point of reference for the market, produced in the 12,000 square meter plant located in Ozzano Emilia, Italy.
