LAUFEN

THE BRAND

The company's expertise of ceramic manufacturing transformed into a talent for creating fully integrated bathrooms with Swiss precision.

THE ORIGIN

Founded in Switzerland in 1982.

THE PRODUCT

"Fingerprint of nature", is how designers Ludovica and Roberto Palomba describe this LAUFEN Palomba Collection, which is typified by the tension between rigorous geometrical and organic shapes. A design of small inlets or pebbles shaped by the movement of the sea is expertly captured in ceramic. Its underlying concept is that of the man-made cube, hollowed and rounded by the the constant, elemental force of water. The bathroom fixtures that range from bidets, washbasins and water closets from the collection do not achieve the absolute status of a fully integrated bathroom, but these designer objects lend themselves to some exciting combinations: both within the collection and with LAUFEN products of a matching design.

COLOUR White, white with LCC, white matte.

Bangalore, Chennai, Delhi,
Mumbai.
